KLOUDIP

Telematics solutions that bring businesses beyond black and white

The flagship FMS solution brings hardware to your vehicles and a monitoring system to your office. You start with location detection, routing, geofences and add extra features, apps, and sensors by your choice.

PASSENGER CARS

We connect private cars and corporate vehicles for employee transportation. You know where your cars are and have been, protect them from thieves, and ensure cost-effective driving.

DUAL DASH CAMERA

Watch driving style of guest drivers
Check passengers and road
Replay movements for the past day

ENGINE IMMOBILISER

Stolen vehicles won't go anywhere
One-click remote engine stop
Auto-stop when leaving certain area

DOOR OPENING SENSOR

Unauthorised access alerts
Always sure you've locked the door
Engine immobilised when it happens

TYRE PRESSURE SENSOR

Proper pressure saves fuel
You feel safer on the roads
Even wear of tyres guaranteed

PLUG AND PLAY TRACKER

Installed in five minutes
Used to charge your mobile devices
Can be shared among many vehicles

The flagship FMS solution brings hardware to your vehicles and a monitoring system to your office. You start with location detection, routing, geofences and add extra features, apps, and sensors by your choice.

TRUCKS AND VANS

We connect transport vehicles and cargo. You prevent cargo from being stolen and damaged, ensure timely delivery, and raise client satisfaction.

MOBILE CCTV CAMERA

Watch driving style from the office
Analyse accidents. Unbiasedly
Match video with monitoring data

WIRELESS SENSORS

Track transportation conditions
Report changes in real time
Ensure that cargo arrives unspoiled

DOOR OPENING SENSOR

Triggers unauthorised access alerts
Seals your cargo through GPS
Leaves thieves with nothing

GPS TRACKER

The core of telematics solution
Hidden not to be damaged by drivers
Knows all your vehicle movements

TYRE PRESSURE SENSOR

Proper pressure saves fuel
You feel safer on the roads
Even wear of tyres guaranteed

FUEL LEVEL SENSOR

Tells the exact volume of fuel filled
Detects fuel thefts
Sealed not to be damaged by drivers

AXLE LOAD SENSORS

Eases excess wear due to overload
Keeps unauthorised goods outside
Prevents cargo thefts during trips

The flagship FMS solution brings hardware to your vehicles and a monitoring system to your office. You start with location detection, routing, geofences and add extra features, apps, and sensors by your choice.

MOBILE CCTV CAMERA

Watch driving style from the office
Analyse accidents. Unbiasedly
Match video with monitoring data

GPS TRACKER

The core of telematics solution
Hidden not to be damaged by drivers
Knows where your buses are

PASSENGER TRANSPORTATION

We interconnect people and transport. You get life-time passengers, raise their satisfaction, and ensure cost-saving operation.

TYRE PRESSURE SENSOR

Proper tyre pressure saves fuel
Passengers feel safer on the roads
No idling due to early tyre wear

FUEL LEVEL SENSOR

Tells the exact volume of fuel filled
Detects fuel thefts
Sealed not to be damaged by drivers

RFID READER

Allows for exact passenger counting
Identifies people in corporate buses
Optimizes passenger logistics

The flagship FMS solution brings hardware to your vehicles and a monitoring system to your office. You start with location detection, routing, geofences and add extra features, apps, and sensors by your choice.

CONSTRUCTION MACHINERY

We connect heavy machinery, diesel generators, and construction sites. You know how, where, and by whom they are used.

FUEL LEVEL SENSOR

Tells the exact volume of fuel filled
Detects fuel thefts
Sealed not to be damaged by drivers

MOBILE CCTV CAMERA

Watch machinery from the office
Analyse accidents. Unbiasedly
Match video with monitoring data

DOOR OPENING SENSOR

Triggers unauthorised access alerts
Seals your cargo through GPS
Leaves thieves with nothing

GPS TRACKER

The core of telematics solution
Hidden not to be damaged by drivers
Knows where your buses are

SENSORS AND COUNTERS

Calculate work by engine hours
Angle sensors for rigs and blocks
Rotations sensors for ready mix

AXLE LOAD SENSORS

Detects thefts during transportation
Prevents breakdowns due to overload
Shows empty rides

TYRE PRESSURE SENSOR

Proper tyre pressure saves fuel
Passengers feel safer on the roads
No idling due to early tyre wear
